FIRE AND LIVING LABS

FUTURE INTERNET BY THE PEOPLE | LULEÅ, SWEDEN JULY 1-2 2009

FIRE

Best Connectivity Quality 	User-centric approach 	Control plane functionality
Data-centred networking research 	P2P 	Multi-PAT 
New routing protocols/paradigms 	DTN, ONA 	Multi-hop ad-hoc WSN and mesh network optimisation 
Resilience and security approaches  	Self-management approaches 	Autonomic configuration 

Living Labs

FIRE Coordination

1. Feedback for

- Strategy – FIRE White Paper
- Facility architecture – WG report
- FIRE Governance model – Sustainability

<http://www.ict-fireworks.eu>

-> Publications

-> Papers

2. Input for Future Internet Assembly (FIA) and FI PPP

- Federated-Open-Trusted platforms (FOTs)
- Multi-disciplinary, cross-domain, layerless
- Experimentation as the common theme and connector
- FP7 model and experience from e.g. Artemis JTI

FIRE Coordination

3. NRENs and GEANT3

- Cooperation plan

4. International cooperation

- GENI – ‘rooting’ and increasing the basis for the cooperation
- Japan – several interfaces
- China, Korea
- South-East Asia
- Brazil

5. Towards inclusion of socio-economic aspects

Living Lab Coordination

1. ENoLL Association

- Getting organised as a legal entity
- Thematic domains
- Interfaces to stakeholders

2. 4th wave members

- Quality in focus
- Growing international family

3. Cross-border Pilots

- Demonstrating the added-value of LL network
- Access for SMEs

A photograph of a child standing on a stone path by a pond in a park. The child is wearing a red hat and a green jacket. The path is made of large, flat stones. In the background, there is a green lawn and trees. The text "Thank you!" is overlaid on the image.

Thank you!
